WOOD STOVES PROCEDURES

When an applicant is looking to install ANY TYPE of wood stove into the fireplace or connect it into an existing chimney, the following **MUST** be done **PRIOR** to the issuance of the Permit and or the utilization of the wood stove ...

1. Installation of the unit is in accordance with the either the manufacturers specifications or per M1401.6 of 780 CMR 51.00 of the MA Amendments.
2. A certificate from a chimney cleaning company stating that they have cleaned and have examined the chimney and found it to be safe to use.
3. The Installation Book is to be on the site at the time of inspection.
4. **THE WOOD STOVE IS NOT TO BE OPERATING UNTIL AFTER THE INSPECTION IS PERFORMED.**

WOODSTOVE INSERTS

1. **They are to be inspected PRIOR TO THE UNIT BEING INSERTED INTO THE FIRE PLACE.**

EFFECTIVE IMMEDIATELY

A Woodstove **cannot** vent into a chimney used by either an oil fired furnace or one by gas. They must vent into a flue solely used by the woodstove only.
